- Built-in Flashlight
- CJIS-Compliant Solution
- HD Pre-Event Recording
- One-Touch Recording
- Built-In LCD Screen
- IP68 Waterproof
- Unbeatable Value

ULTIMATE CUSTOMIZATION

The many customizable features on the BODYCAM® BC-300 give you unrivaled flexibility to meet your organization's specific recording needs and adjust to future changes in policies or requirements.

SELECTABLE NIGHT VISION

Record a clear view in any lighting condition with built-in, high-intensity infrared illuminators configurable to be manually or automatically activated.

IP68 WATERPROOF DESIGN

With its IP68 waterproof rating, you can count on the BODYCAM® to deliver reliable performance no matter the weather conditions.

HARDWARE PROTECTION

For ultimate peace of mind, BODYCAM® features an optional extended Hardware Protection Plan that covers loss and theft, and includes unlimited camera replacements due to accidental damage.

10-CAMERA DOCKING STATION

Simplify the file download process with multi-camera docking stations specifically designed for use with the BODYCAM® BC-300.

EQUIP DOUBLE THE OFFICERS

Stretch your precious budget dollars and equip more officers with BODYCAM®— affordably priced at over 50% less than other brands.

RUGGED RELIABLE DESIGN

The BODYCAM® offers incredible durability features, meeting military specifications, to withstand any climate.

- 1. HIGH-IMPACT LENS PROTECTOR:** Lens is protected by a flush-mounted housing and an additional glass barrier, minimizing damage.
- 2. IP68 ALL-CLIMATE RATING:** Built to withstand the rigors of any work environment.
- 3. TRIPPOINT GRIP:** Designed into the BODYCAM® housing, the TriPoint™ Camera Grip provides users with an enhanced hold on the device when handling, reducing accidental drops and potential camera downtime.
- 4. POGO® PINS:** The BC-300 utilizes precision-machined, spring-loaded pogo pin contacts that produce a steadier connection and last 20 times longer than other connection types.

HD PRE-EVENT RECORDING

Ensure crucial events are not missed with the pre-event recording buffer that captures video of the events occurring before a recording is manually activated. No other camera offers a longer buffer when recording in High Definition.

12+ HOUR FULL-SHIFT BATTERY

Know your camera's charge will last an entire shift, even when recording High-Definition video. While other brands make the claim, most can't last when recording HD-quality video.

EVIDENCE MANAGEMENT

Rely on SecuraMax™ by PRO-VISION®— the CJIS-compliant solution that utilizes cloud or self-hosted server storage designed for BODYCAM®—as your organization's Reliable, Simple, Secure™ evidence management solution.
